

Meeting the Governor's Challenge!

200,000 new Iowa jobs in
the next five years!

- Iowa's great work ethic
- Economic development incentives
- Meeting the labor demand through a skilled workforce

A well-trained workforce is the keystone to the state's creation of 200,000 new jobs!

IWD projects that up to 80% of the jobs coming to Iowa require a two-year education or less.

Iowa's community colleges are the engine to meet the state's new workforce demands!

Given the tools, Iowa's community colleges are positioned to meet the governor's challenge.

Community Colleges of Iowa

*Community college students have a dream!
They all want a better life in Iowa.*

They want to be part of the NEW Iowa workforce.

Equipped with advanced job skills, these lowans will become the newly employed.

Let's take a look!
Where are we today?

Charge to Iowa's Community Colleges (Iowa Code 260C.1)

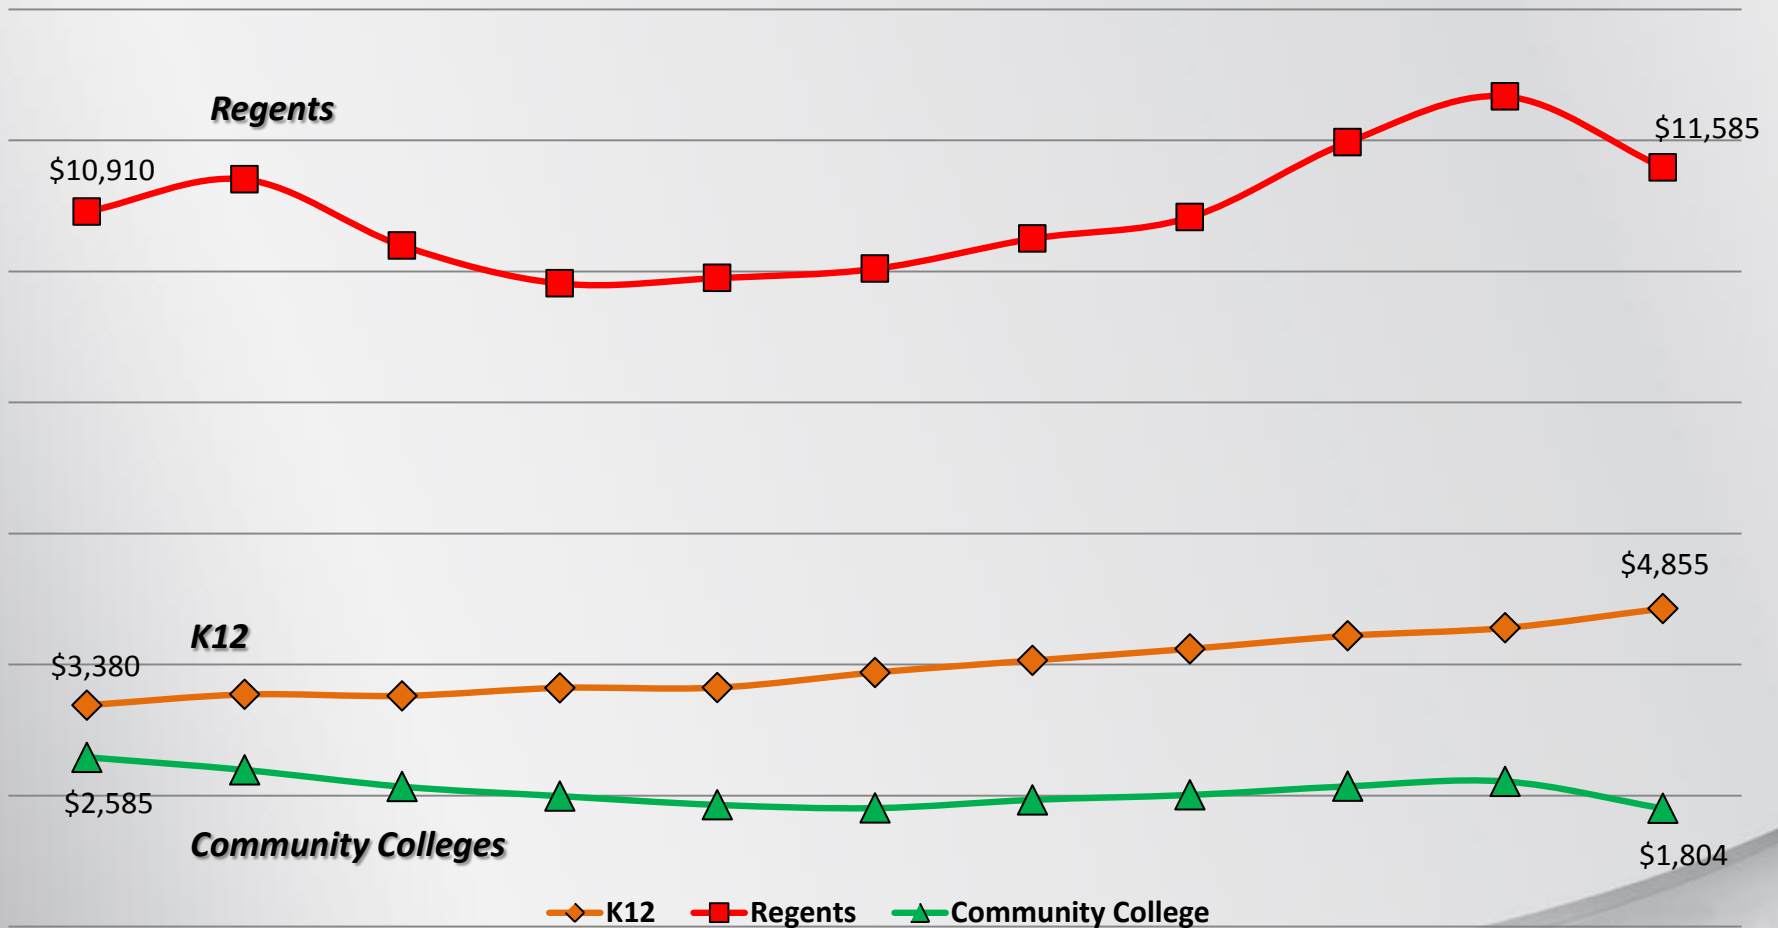

- *The first two years of college work*
- *Vocational and technical training*
- *Worker in-service training and retraining*
- *GED programs*
- *Vocational and technical training programs for high school students*

What is the Future?

Community College

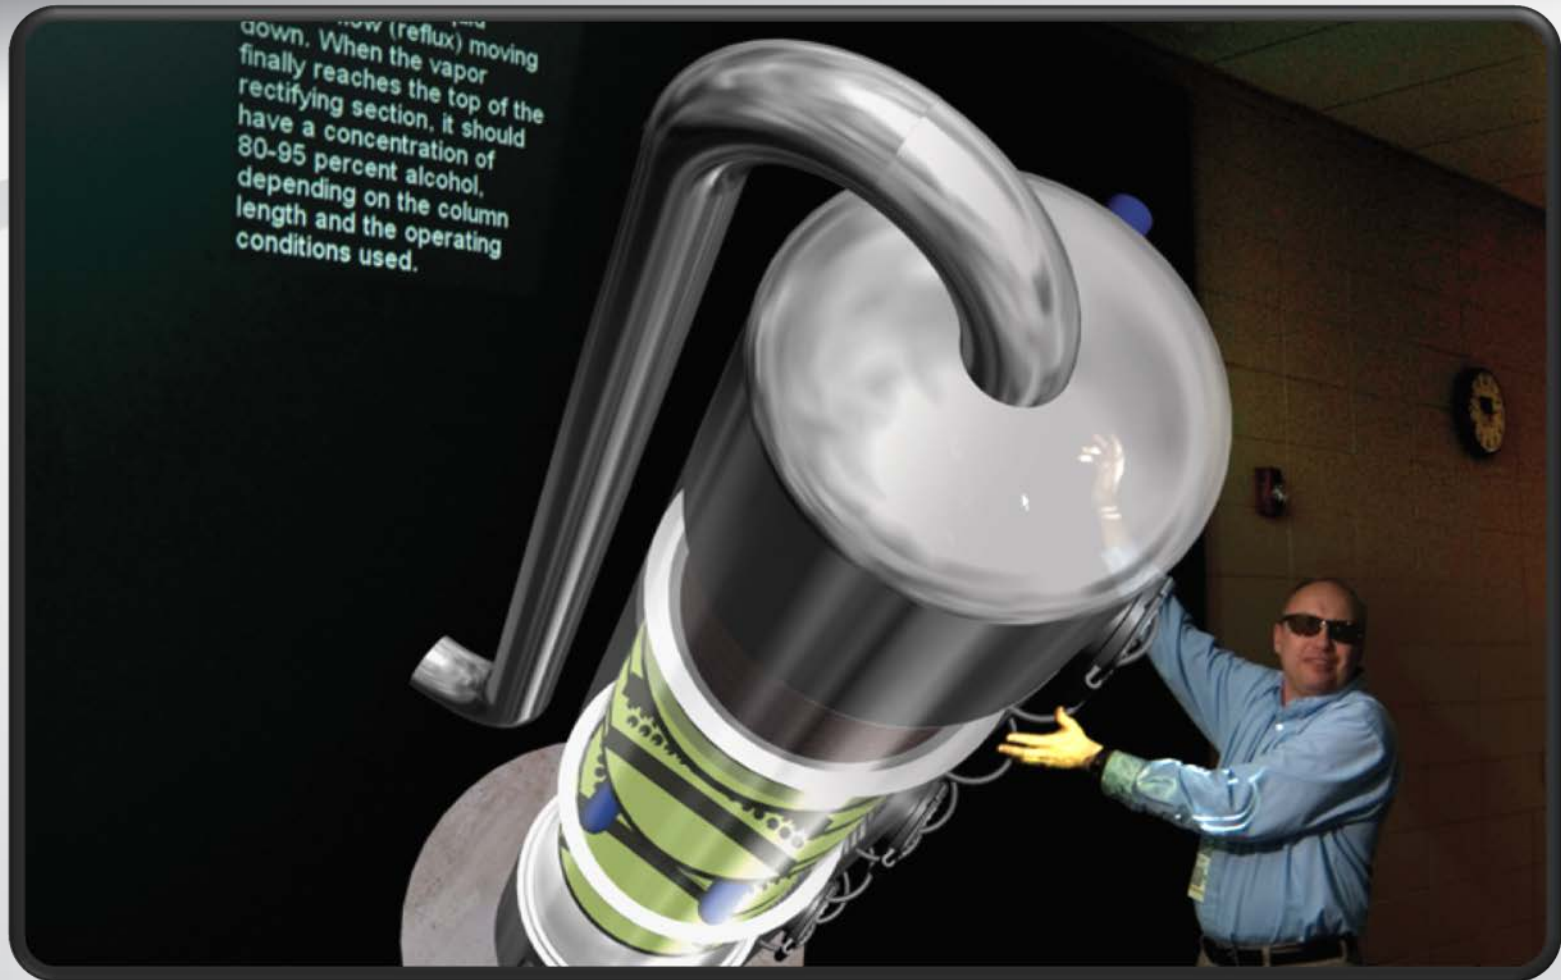

2011 Legislative Priorities

- **State general aid** of \$202.6 million in keeping with Iowa's fiscal realities
- **Long-term skilled worker training** commitment of state and local funding
- State commitment to **adult literacy programs**
- **Local board flexibility** to access local tax support

Iowa Community College Excellence Fund 2015

Three-point plan to increase CC funding \$90 million over the next four years

1. Increase **state general aid** by \$60 million at \$15 million per year to grow Iowa's skilled workforce.
2. Invest \$20 million at \$5 million per year to create **Pathways for Academic Career Education and Employment (PACE)**.
3. Increase the **Workforce Training and Economic Development (WTED) Fund** to \$21.5 million at \$2.5 million per year to enhance workforce training and entrepreneurial small business development.

down. When the vapor
finally reaches the top of the
rectifying section, it should
have a concentration of
80-95 percent alcohol,
depending on the column
length and the operating
conditions used.

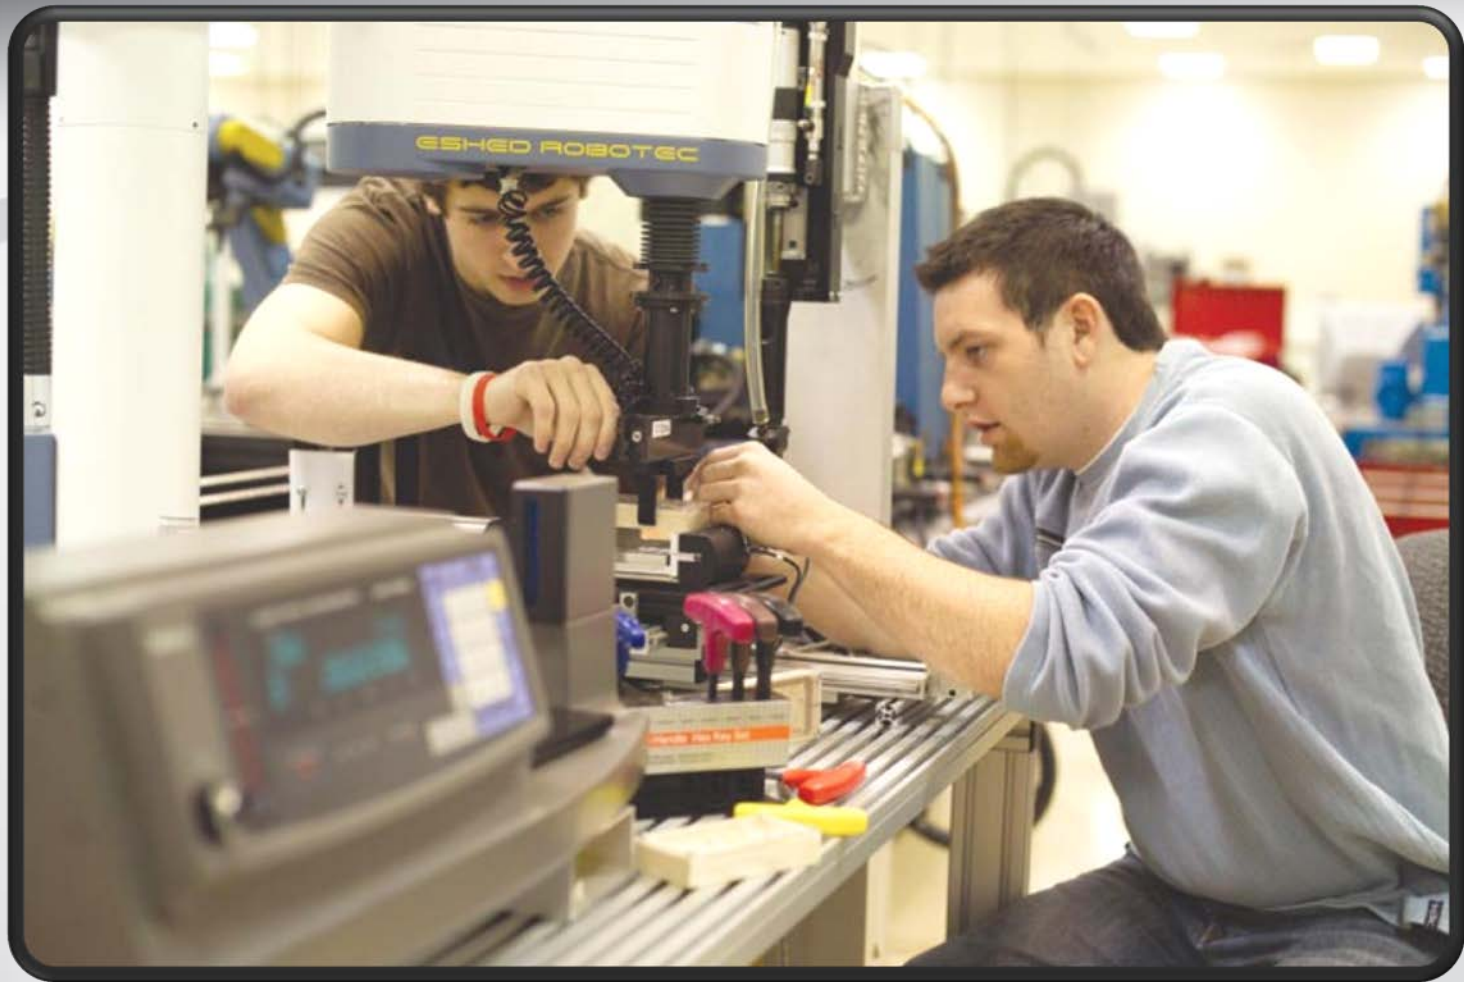

Community colleges need the resources to meet the new demands in the biofuels industry.

The wind industry is key to Iowa's future. Equipment, labs and faculty are necessary to meet the new industry demands.

Advances in medical fields require a new level of trained medical personnel. Iowa's community college's can deliver these people, given the resources.

Advanced manufacturing industries require a new level of technicians to keep their plants productive. Iowa's community college's can and will provide this new level of skilled technician, given the resources.

*Advanced welders are in short supply.
Increased capacity is necessary to meet the
demand.*

Community colleges need more advanced manufacturing labs - such as the one at Western Iowa Tech Community College.

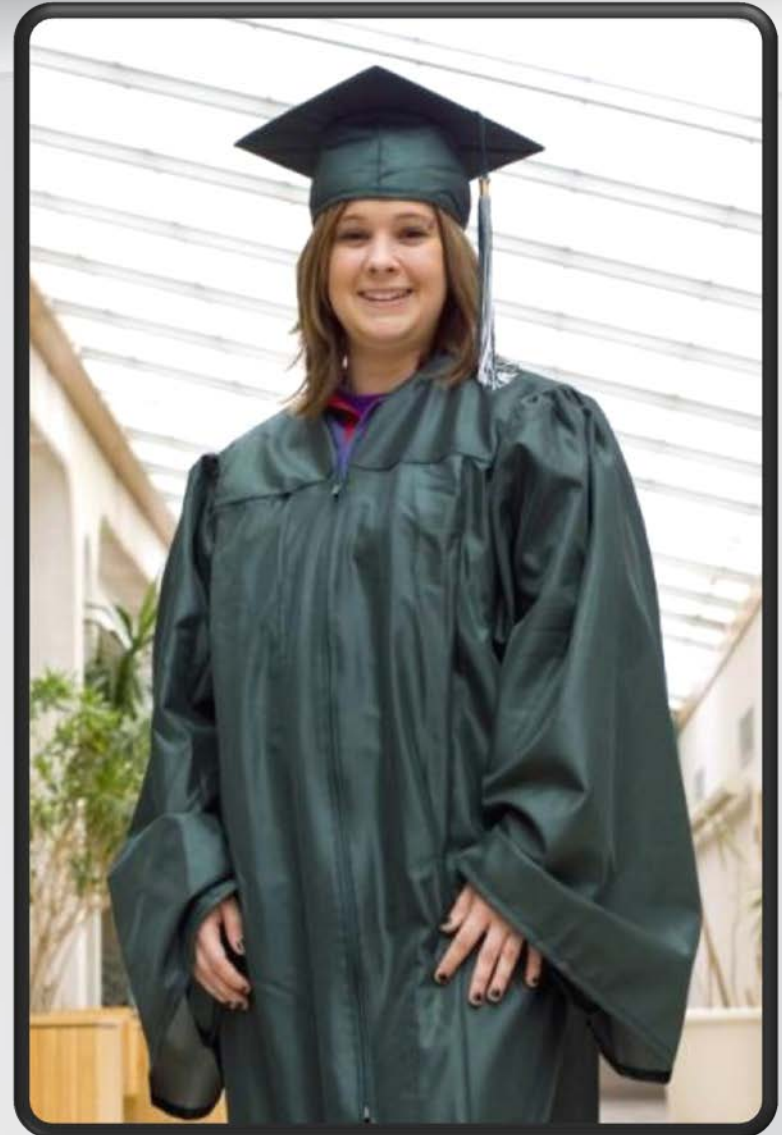

Businesses need on-site, on time, advanced training!

Portable training labs such as this one at Western Iowa Tech Community College can provide it .

*An investment in
Iowa's community
college students pays*

BIG DIVIDENDS

*and is critical to
creating 200,000 new
jobs in the next five
years.*

Impact on the State's Economy

By the Community Colleges of Iowa

- \$2.60 returned to taxpayers over a community college student's career for every \$1 of state and local tax money
- 10% return on state and local government support of community colleges
- 19% return to community college students on their educational investment
- 86% of community college students remain in Iowa contributing to its economy

The Iowa Policy Project

Executive Summary

Education Pays in Iowa

May 2009

The state's return on investment in workforce education

- Associate's degree \$3.70
- Bachelor's degree \$2.40

200,000 new Iowa jobs will be impossible without a highly trained and skilled workforce.

Given the resources, Iowa's community colleges will have the tools and commitment to make it happen!

Iowa has the money to do
anything it wants to do,

but it does not have the
money to do everything!

You as legislators will have to make some tough choices.

- How will you invest in the programs and initiatives that will accomplish the goals of the legislature, the governor and the people of Iowa?
- How will you put the state on the road to economic recovery?

The road to economic recovery has many paths. Give community colleges the resources, and we will drive you there in short order.

The Sky's the Limit!

Together let's go out
and create those
200,000 new jobs the
governor wants, and put
Iowa back to work!

Thank you for your time and understanding.
I will be glad to answer any questions.
